4. **FIRST AID MEASURES**

General: If symptoms persist, obtain medical attention.

Inhalation:	Obtain immediate medical attention. In case of accident by inhalation remove casualty to fresh air and keep at rest.
Skin Contact:	Remove contaminated clothing immediately and wash affected skin with plenty of water or soap and water.
Eye Contact:	Obtain medical attention. If substance has got into the eyes, immediately wash out with plenty of water for at least 15 minutes.
Ingestion:	Obtain immediate medical attention. Wash out mouth with water and give 200-300 ml (half a pint) of water to drink.

5. FIRE-FIGHTING MEASURES

Extinguishing Media:	Extinguish preferably with dry chemical, Carbon dioxide, Water spray, Foam.
Unsuitable Extinguishing Media:	Do not use water jet.

Product Name TN-210M, TN-230M, TN-240M, TN-270M To	Version Number: 3 ner SDS No.: MT402-01-EUUSOTHER
Special firefighting procedures:	Do not use high-pressure water in order to prevent creating a dust cloud and spreading fire dust. Use appropriate respirator for carbon monoxide and carbon dioxide. Wear positive pressure self-contained breathing apparatus (SCBA) during the attack phase of firefighting operations and during cleanup in enclosed or poorly ventilated areas immediately after a fire. Personnel not having suitable respiratory protection must leave the area to prevent significant exposure to toxic combustion gases from any source.
Unusual fire and explosion hazards:	May form explosible dust clouds in air. Combustion products: See Section: 10.
Explosion limits:	Lower = 80 - 85 g/m ³
6. ACCIDENTAL RELEASE	MEASURES
Personal Protection:	Avoid generation of dust. Do not breathe dust. A suitable dust mask or dust respirator with filter type A/P may be appropriate.
Environmental Precautions:	Prevent substance entering sewers. Washings must be prevented from entering surface water drains.
Methods for Cleaning Up:	Sweep the spilt toner or remove it with a vacuum cleaner and transfer into a sealed container carefully. Sweep slowly to minimize generation of dust during clean-up. If a vacuum cleaner is used, the motor must be rated as dust explosion-proof.
	Potential for very fine particles to be taken into the vacuum only to be passed back into the environment due to pore size in the bag or filter.

DISPOSAL CONSIDERATIONS - See Section: 13.

7. HANDLING AND STORAGE

Handling:

Keep out of the reach of children. Avoid dust generation. Avoid inhalation of high concentrations of dust. Avoid contact with eyes.

Keep out of the reach of children. Keep away from oxidizing agents.
