**PK301**

## PK301... 120" image that's the business

The immensely powerful PK301 gives you the freedom to do business anywhere. It is so compact and lightweight that you can slip it into your travel bag or even your pocket and at the touch of a button you can instantly share your business ideas. Present PowerPoint slides, show video, discuss business ideas by connecting your netbook or laptop, iPhone® or Blackberry® Presenter, digital camcorder and more via the convenient Mini HDMI, VGA and AV inputs.

With a battery life of 1.5 hours or a stunning 5 hours with the optional high-capacity battery, the PK301 is the ideal projector for the business user on the move, helping you to give a great impression and winning you business wherever you are. And when you've finished business for the day it's great for entertainment too, share your favourite photos and video clips with family and friends, or connect to games consoles so everyone can join in the fun.

For those large multimedia files, the PK301 comes with a MicroSD card slot allowing you to share them with your audience at up to 120" in size using the included remote control. Videos and websites will spring to life in full WVGA (854 x 480) widescreen resolution.

### PK301 - A Great presentation tool...

For Sales

Sharing Ideas

On the road

After hours

#### Extremely Portable:

The compact and lightweight design of the PK301 allows it to slip comfortably into any bag, making it the perfect projector for business people on the move. Capable of projecting for up to 1.5 hours on a single battery charge, or for an amazing 5 hours\* using the optional high-capacity battery pack for those extended meetings or long -haul flights.

#### Point and Present:

Load multimedia files onto a MicroSD card and using the integrated card slot, start presenting stunning images and presentations of up to 120" directly to your audience. A slim-line remote makes controlling your PK301 from your chair or from in front of an audience simple and convenient.

#### Extensive Connectivity:

Using the Mini-HDMI you can achieve the sharpest image possible. The PK301 accepts a wide variety of computer and video inputs including; VGA, Composite and Component and there's even a USB input for convenient file transfers and battery recharging. Sound is catered for from the integrated built-in speakers and external audio connections means you can further enhance the visual experience.

#### Widescreen Resolution:

Using the full WVGA (854 x 480) widescreen resolution, your presentations will be as sharp and detailed as they appear on your netbook's screen and your photos and videos will come to life.

#### Green Technology:

The PK301 uses energy efficient LEDs to minimise running costs, extend life and minimise the impact on the environment.
