

## Mini DisplayPort to DVI Active Adapter

StarTech ID: MDP2DVIS

The MDP2DVIS Mini DisplayPort to DVI Active Adapter (single-link) lets you connect your Mini-DisplayPort video source to a DVI-D display, including televisions and Apple Cinema Display HD, eliminating the expense of having to upgrade to a DisplayPort capable monitor.

Unlike passive video adapters, this Mini DisplayPort to DVI adapter offers an active conversion for use with any Mini DisplayPort output - ideal for graphics cards that are not capable of outputting multi-mode DP++ signals (e.g. ATI Eyefinity).

Supporting resolutions up to 1920x1200, this compact device provides a simple solution for adapting PC or Mac® Mini-DisplayPort output for DVI monitors, televisions or projectors.

Compatible with Intel® Thunderbolt™, when connected directly to a supporting DisplayPort over Thunderbolt™ I/O port.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

## **Applications and Solutions**

- Ideal for digital entertainment centers, home offices, business conference rooms and trade show displays
- Ideal for using your DVI monitor as a secondary display
- Keep your existing DVI monitor to be used with your new Mini DisplayPort device
- Perfect for larger format screens that use high DVI resolutions
- Adapt from graphics cards that are not capable of outputting DP++ signals

## Features

- Compliant with DisplayPort 1.1a specifications
- Supports HDCP 1.3
- Supports display resolutions up to 1920x1200
- Works with video cards that aren't capable of outputting DP++ (multi-mode) signals
- Compatible with Intel® Thunderbolt™

## Technical Specifications

- Warranty: 2 Years
- Product Height: 20
- Product Length: 200
- Maximum Digital Resolutions: 1920x1200
- Operating Temperature: 0°C to 70°C (32°F to 158°F)
- Carton Quantity: 120
- Industry Standards: HDCP 1.3

DisplayPort 1.1

DDWG 1.0

- Storage Temperature: 0°C to 70°C (32°F to 158°F)
- Shipping (Package) Weight: 0.16 lb [0.07 kg]
- Product Weight: 70
- Product Width: 44
